SUMMARY

Electrical Engineering Technology diploma student with hands-on **electrical design**, **CAD drawings**, **PCB** and **cable** experience through projects and field work. Proficient with **AutoCAD Electrical** and PCB design (**KiCad**); strong **drawing interpretation**, attention to detail, and collaboration in multidisciplinary teams.

TECHNICAL SKILLS

- **Electrical & Hardware:** DC/AC circuits, residential & commercial wiring, cable routing, **PCB** design (KiCad), microcontrollers (Arduino, PIC), prototyping, testing & troubleshooting
- **Software & Tools:** AutoCAD Electrical, KiCad, Multisim, Python, C
- **Standards & Safety:** Electrical Code comprehension, WHMIS, Working at Heights, Lockout/Tagout

EDUCATION

Electrical Engineering Technology Diploma	Sep 2022 – Present
<i>Centennial College</i>	<i>Scarborough, ON</i>
– Relevant coursework: Drawing Interpretation & Installation, Electrical Theory, PLC Programming , Power Generation, Microcontrollers, Signals & Communication. GPA: 4.1	

WORK EXPERIENCE

Electrician Assistant	Sep 2024 – Present
<i>Independent / On-call</i>	<i>GTA, ON</i>
– Assist licensed electricians with installation of electrical systems , wiring, conduit, panels, and lighting ; interpret drawings and implement field changes safely and to code.	
Electrical Technician Assistant	Jul 2021 – Aug 2021
<i>Microgreen Solar Corp</i>	<i>Markham, ON</i>
– Test and troubleshoot DC-AC inverter equipment ; perform load testing, quality checks, and component-level repairs using test instruments and soldering tools.	
Low Voltage Technician	Jul 2025 – Sep 2025
<i>OneNid Inc</i>	<i>GTA, ON</i>
– Install and route low-voltage cabling for cameras and access control; follow cable schedules and documentation; work with team to integrate field devices.	

PROJECTS

8x8x8 RGB LED Cube	Dec 2021 – Jun 2023
<i>Arduino / PCB Design</i>	
– Designed custom PCB layouts and 3D-printed enclosures; created wiring schematics and assembly instructions for a 512-LED cube driven by an Arduino.	
Adaptive LED Headlight Simulation	Sep 2025 – Dec 2025
<i>PIC16F747 / Embedded Systems</i>	
– Developed embedded control logic and wiring for distance-based LED headlight behavior; created schematics tying sensors, microcontroller, and LED arrays.	
Automated Circadian Lighting (Retrofit)	Sep 2025 – Dec 2025
<i>Lighting Control / Electrical Design</i>	
– Designed retrofit electrical and control concept for LED lighting; documented wiring approach and operating modes focusing on comfort and efficiency.	

CERTIFICATIONS

WHMIS, Working at Heights, G3 Gas Technician.
