SUMMARY

Electrical Engineering Technology diploma student with strong interest in **power systems** and **protection**. Hands-on experience in **electrical** installations, **testing**, and documentation; comfortable reading single-line drawings and supporting field changes. Detail-oriented, analytical, and collaborative in multi-disciplinary teams.

TECHNICAL SKILLS

- **Electrical & Hardware:** DC/AC circuits, power distribution, panels and breakers, wiring & conduit, low-voltage systems, testing & troubleshooting
- **Software & Tools:** AutoCAD Electrical, Multisim, Python, C
- **Standards & Safety:** Electrical Code comprehension, WHMIS, Working at Heights, Lockout/Tagout

EDUCATION

Electrical Engineering Technology Diploma	Sep 2022 – Present
<i>Centennial College</i>	<i>Scarborough, ON</i>
– Relevant coursework: Electrical Theory, Drawing Interpretation & Installation, PLC Programming, Power Generation, Microcontrollers, Signals & Communication. GPA: 4.1	

WORK EXPERIENCE

Electrician Assistant	Sep 2024 – Present
<i>Independent / On-call</i>	<i>GTA, ON</i>
– Assist licensed electricians with installation and maintenance of power distribution equipment, panels, breakers, and wiring; perform continuity and voltage testing and work to electrical code .	
Electrical Technician Assistant	Jul 2021 – Aug 2021
<i>Microgreen Solar Corp</i>	<i>Markham, ON</i>
– Support testing and troubleshooting of DC-AC inverter equipment; conduct load tests and quality checks to verify proper operation.	
Low Voltage Technician	Jul 2025 – Sep 2025
<i>OneNid Inc</i>	<i>GTA, ON</i>
– Install and terminate low-voltage cabling for cameras and access control; follow drawings and documentation; ensure work meets code and client standards.	

PROJECTS

Adaptive LED Headlight Simulation	Sep 2025 – Dec 2025
<i>PIC16F747 / Embedded Systems</i>	
– Designed embedded control logic and wiring for distance-based LED headlight behavior; validated behavior through testing and analysis.	
Automated Circadian Lighting (Retrofit)	Sep 2025 – Dec 2025
<i>Lighting Control / Electrical Design</i>	
– Developed a retrofit electrical and control concept for LED lighting; considered power use and system performance while integrating with existing infrastructure.	

CERTIFICATIONS

WHMIS, Working at Heights, G3 Gas Technician.
