SUMMARY

Electrical Engineering Technology graduate (with Honours) with **college-level electronics** coursework in **monitoring systems, networking, and PLC/controls**, backed by hands-on field experience in **low-voltage system installation**, structured cabling, and **testing/troubleshooting**. Experience installing and configuring **DVR/NVR** and access-control platforms is directly relevant to inspecting, servicing, and installing fire alarm, building automation, and communications systems. Seeking a Fire Alarm Technician role and interested in pursuing **CFAA** registration.

TECHNICAL SKILLS

- **Monitoring & Controls:** Monitoring Systems, PLC Programming, DVR/NVR Configuration & Network Setup, Access Control Integration (card readers, maglocks, motion sensors), Digital & DC/AC Circuits
- **Low-Voltage & Cabling:** Structured Cabling (Cat5e/Cat6/Cat6A) to **TIA/EIA Standards**, Network Cabling, Security Systems Installation, Cable Testing & Fault Diagnosis
- **Electrical & Testing:** Residential & Commercial Wiring, **Testing & Troubleshooting** (continuity, voltage, insulation resistance), Panel & Device Installation, Blueprint/Wiring Diagram Interpretation
- **Standards & Safety:** Electrical Code Comprehension, Lockout/Tagout, WHMIS, Working at Heights

EDUCATION

Electrical Engineering Technology Diploma (with Honours)

Sep 2022 – Apr 2026

Centennial College

Scarborough, ON

- Relevant coursework: Electrical Theory, Drawing Interpretation & Installation, **Monitoring Systems, Networking, PLC Programming**, Signals & Communication
- GPA: 4.1

WORK EXPERIENCE

Low Voltage Technician

Jul 2025 – Sep 2025

OneNid Inc

Greater Toronto Area, ON

- Installed and terminated Cat5e/Cat6/Cat6A cabling for IP cameras, access points, and intercom systems to **TIA/EIA standards**.
- Installed and configured **DVR/NVR platforms**, including network connectivity and remote access setup for client monitoring.
- Integrated **access control hardware** (card readers, maglocks, motion sensors) with low-voltage wiring and control panels.
- Executed structured cabling from floor plans and wiring diagrams; labeled and organized runs for easier maintenance and troubleshooting.
- Validated terminations and **diagnosed faults** using cable testers, crimping tools, and multimeters before system handoff.

Electrician Assistant (As-Needed)

Sep 2024 – Apr 2026

Independent / On-call

Greater Toronto Area, ON

- Pulled, cut, routed, and terminated wiring/conduit for lighting, receptacles, and power distribution during rough-in and finishing phases.
- Installed switches, outlets, fixtures, and breakers to code requirements, and supported panel upgrades by verifying **continuity, voltage, and insulation resistance** before energization.

Electrical Technician Assistant

Jul 2021 – Aug 2021

Microgreen Solar Corp

Markham, ON

- Repaired and tested DC-AC inverter power packs under multiple load conditions; performed component-level **troubleshooting** with multimeters and oscilloscopes.
- Diagnosed and resolved faults across power conversion, control, and protection circuitry; documented repairs and test procedures for repeatability.

Residential Renovation Assistant

Construction Inc

May 2023 – Aug 2023

Greater Toronto Area, ON

- Installed electrical wiring for full-home renovations, including switches, outlets, and lighting fixture connections.
- Supported multidisciplinary renovation tasks to keep projects on schedule.

PROJECTS

Adaptive LED Headlight Simulation

Sep 2025 – Dec 2025

PIC16F747 / Embedded Systems

- Designed a microcontroller-based sensing and control system (PIC16F747, HC-SR04 ultrasonic sensor) with distance-based zone control; programmed firmware in **C** and diagnosed a timing-related output defect.

CERTIFICATIONS

- WHMIS Certification (2026)
- Working at Heights Certification (2024)
- Full G Driver's Licence (Ontario), own vehicle
