SUMMARY

Hands-on **electrical and mechanical technician** with direct experience **diagnosing and repairing** equipment — component-level PCB/inverter repair, control-circuit troubleshooting, and mechanical system installation — backed by an **Electrical Engineering Technology** diploma (Honours) and a **G3 Gas Technician** certification (G2 in progress). Prior experience **running a packaging line** to daily throughput/quality targets adds direct familiarity with production-floor operations. **WHMIS** and **Working at Heights** certified.

TECHNICAL SKILLS

- **Mechanical Repair & Maintenance:** Equipment Troubleshooting & Repair, Preventive Maintenance, Mechanical Systems Installation, Brazing, Sheet Metal Fabrication, Hand & Power Tools
- **Electrical & Controls:** Wiring & Panel Installation, Low-Voltage Systems, DC/AC Circuit Diagnostics, Component-Level (PCB) Troubleshooting & Repair, PLC Programming, Multimeter & Oscilloscope Diagnostics, Soldering
- **Production & Quality:** Packaging Line Operations, Throughput & Quality Targets, Inventory Coordination, Repair Documentation & Traceability
- **Standards & Safety:** WHMIS, Working at Heights, Lockout/Tagout, Electrical/Gas Code Comprehension (G3)

WORK EXPERIENCE

Electrical Technician Assistant

Jul 2021 -- Aug 2021

Microgreen Solar Corp

Markham, ON

- **Repaired and tested DC-AC inverter** power packs under multiple load conditions, diagnosing and resolving faults across power conversion, control, and protection circuitry.
- Performed **component-level PCB troubleshooting and repair** using multimeters, oscilloscopes, and soldering tools; documented repairs to improve maintenance traceability.

Operations & Systems Assistant

Jun 2022 -- Aug 2022

Microgreen Solar Corp

Markham, ON

- **Led packaging line operations**, consistently meeting daily **throughput and quality targets**, while coordinating inventory and shipment logistics to keep runs on schedule.

Gas Technician Co-op

Jun 2026 -- Aug 2026

Considerate Tech

Greater Toronto Area, ON

- Installed and **pressure-tested** gas piping runs, venting systems, ductwork, and PVC intake/exhaust piping in new residential construction — precise mechanical assembly and testing on active work sites.
- Diagnosed and corrected installation issues against code and manufacturer specifications while coordinating with other trades to keep work on schedule.

HVAC Assistant

May 2024 -- Dec 2024

HVAC Contractor

Greater Toronto Area, ON

- Installed, maintained, and **repaired** residential/commercial HVAC equipment; performed preventive maintenance checks, filter replacement, and refrigerant pressure monitoring.
- Fabricated ductwork and completed copper pipe cutting/brazing; used **wiring diagrams and schematics** to troubleshoot equipment and installation issues.

Electrician Assistant (As-Needed)

Sep 2024 -- Apr 2026

Independent / On-call

Greater Toronto Area, ON

- Pulled, routed, and terminated wiring and conduit for power distribution during rough-in and finishing phases on residential/commercial jobs.
- Installed switches, outlets, fixtures, and breakers to code; verified **continuity, voltage, and insulation resistance** before energizing equipment.

EDUCATION

Electrical Engineering Technology Diploma (with Honours)

Sep 2022 -- Apr 2026

Centennial College

Scarborough, ON

- Relevant coursework: Electrical Theory, Drawing Interpretation & Installation, Monitoring Systems, PLC Programming, Power Generation.
GPA: 4.1

Gas Technician 2 (G2) -- In Progress

2026 -- Present

Himark College

Ontario

- TSSA certification exam scheduled September 11, 2026.

Gas Technician 3 (G3) Certificate

2025

Stanford College

Toronto, ON

CERTIFICATIONS

- WHMIS Certification (2026) | Working at Heights Certification (2024) | G3 Gas Technician (2025)
