

Simmon Yang

Richmond Hill, ON

xxsimonxx119@gmail.com | 416-262-0372 | linkedin.com/in/simmon-yang

SUMMARY

Electrical Engineering Technology graduate (with Honours) with hands-on experience reading **electrical drawings and wiring diagrams**, integrating hardware with **control panels**, and performing **component-level PCB troubleshooting and repair** on power-conversion and control circuitry. Comfortable with **load testing, QA verification, and fault diagnosis** using multimeters and oscilloscopes, and with **PLC programming** from coursework. Seeking a Service & Electrical Technician role supporting instrument commissioning, repair, and certification compliance.

TECHNICAL SKILLS

- **Electrical & Hardware:** DC/AC Circuits, Digital Circuits, **Testing & Troubleshooting** (continuity, voltage, insulation resistance), **Component-Level PCB Repair**, PCB Design (KiCad), Microcontrollers (Arduino, Raspberry Pi), Soldering, Residential & Commercial Wiring, Low-Voltage Systems
- **Drawings & Documentation:** Electrical Drawing & Wiring Diagram Interpretation, AutoCAD Electrical, Schematics, Service/Repair Documentation
- **Software & Tools:** **PLC Programming**, C, C++, Python, Multisim, MySQL, Git
- **Standards & Safety:** Electrical Code Comprehension, TIA/EIA Standards, WHMIS, Lockout/Tagout

EDUCATION

Electrical Engineering Technology Diploma (with Honours)

Sep 2022 – Apr 2026

Centennial College

Scarborough, ON

- Relevant coursework: Electrical Theory, **Drawing Interpretation & Installation, PLC Programming**, Monitoring Systems, Power Generation, Microcontrollers, Signals & Communication
- GPA: 4.1

WORK EXPERIENCE

Electrical Technician Assistant

Jul 2021 – Aug 2021

Microgreen Solar Corp

Markham, ON

- Repaired and tested **DC-AC inverter power packs** for solar systems under multiple load conditions, using multimeters and oscilloscopes.
- Performed **component-level PCB troubleshooting** and diagnosed faults across power conversion, control, and protection circuitry.
- Assembled and terminated custom power/signal cables, validating shielding, polarity, and connector integrity.
- Executed load and QA tests to verify voltage regulation, inverter performance, and safety compliance; documented repairs and test procedures for repeatability.

Electrician Assistant (As-Needed)

Sep 2024 – Apr 2026

Independent / On-call

Greater Toronto Area, ON

- Pulled, cut, routed, and terminated **wiring/conduit** for lighting, receptacles, and power distribution during rough-in and finishing phases.
- Installed switches, outlets, fixtures, and breakers to **electrical code** requirements, with correct grounding and secure device connections.
- Supported panel upgrades and device commissioning by verifying **continuity, voltage, and insulation resistance** before energization.

Low Voltage Technician

Jul 2025 – Sep 2025

OneNid Inc

Greater Toronto Area, ON

- Installed and terminated structured cabling for IP cameras, access points, and intercom systems, reading **floor plans and wiring diagrams** to plan runs.

- Installed and configured control hardware and DVR/NVR platforms, including network connectivity and access setup.
- Validated terminations and **diagnosed faults** using cable testers, crimping tools, and multimeters before system handoff.

PROJECTS

Adaptive LED Headlight Simulation

Sep 2025 – Dec 2025

PIC16F747 / Embedded Systems

- Designed a microcontroller-based control system using a PIC16F747 and ultrasonic sensor, processing sensor timing with internal timers to drive zone-based output control.
- Programmed firmware in **C** (MPLAB X, XC8); tested timing behavior and diagnosed a flicker defect traced to a PWM timing constraint.

4x4x4 RGB LED Cube

Dec 2021 – Jun 2023

Arduino / C++ / PCB Design

- Designed custom **KiCad PCBs** and a multiplexed control architecture addressing 192 LEDs with shift registers and Bit Angle Modulation, avoiding per-LED driver ICs.

CERTIFICATIONS

- WHMIS Certification (2026)
- Working at Heights Certification (2024)
- Full G Driver's Licence (Ontario), own vehicle
