## SUMMARY

---

Electrical Engineering Technology graduate (with Honours) with hands-on **electrical/mechanical assembly, wiring, and testing** experience across field and bench-level work: cutting, crimping, stripping, and terminating wire and cable; **component-level PCB** assembly and repair; and **schematic/blueprint**-driven installation. Comfortable reading complex prints and technical drawings, using **multimeters and oscilloscopes** for voltage/continuity testing, and following documented QA and safety procedures. WHMIS and Working at Heights certified; full G driver's licence.

## TECHNICAL SKILLS

---

- **Assembly & Bench Work:** Wire cutting/crimping/stripping/terminating, component-level PCB assembly & troubleshooting, soldering, cable/connector fabrication, precise hand-tool manipulation of small parts
- **Testing & QA:** Multimeters, oscilloscopes, continuity/insulation-resistance testing, voltage testing, load/QA verification, pressure/leak testing, documented inspection and repair records
- **Drawings & Standards:** Blueprint/schematic/wiring-diagram interpretation, mechanical drawings, Electrical Code comprehension, AutoCAD Electrical, KiCad PCB Design
- **Safety & Teamwork:** WHMIS, Working at Heights, Lockout/Tagout, safety-procedure compliance on active job sites, coordinating with licensed trades

## EDUCATION

---

### Electrical Engineering Technology Diploma (with Honours)

Sep 2022 – Apr 2026

*Centennial College*

*Scarborough, ON*

- Relevant coursework: Electrical Theory, Drawing Interpretation & Installation, Monitoring Systems, Power Generation. GPA: 4.1

### Gas Technician 2 (G2)

2026

*Himark College*

*Ontario*

- Passed the TSSA G2 certification exam (September 2026); coursework covered advanced installation procedures and code compliance beyond G3 scope.

### Gas Technician 3 (G3) Certificate

2025

*Stanford College*

*Toronto, ON*

- Completed G3 certification training covering piping systems, installation procedures, and applicable codes and regulations.

## WORK EXPERIENCE

---

### Electrical Technician Assistant

Jul 2021 – Aug 2021

*Microgreen Solar Corp*

*Markham, ON*

- Repaired and tested DC-AC inverter power packs for solar systems under multiple load conditions.
- Assembled and terminated custom power/signal cables, validating shielding, polarity, and connector integrity.
- Performed component-level PCB troubleshooting with multimeters, oscilloscopes, and soldering tools.
- Diagnosed and resolved faults across power conversion, control, and protection circuitry.
- Executed load and QA tests to verify voltage regulation, inverter performance, and safety compliance.
- Documented repairs and test procedures to improve repeatability and maintenance traceability.

### Electrician Assistant (As-Needed)

Sep 2024 – Apr 2026

*Independent / On-call*

*Greater Toronto Area, ON*

- Pulled, cut, routed, and terminated wiring/conduit for lighting, receptacles, and power distribution during rough-in and finishing phases.
- Installed switches, outlets, fixtures, and breakers to electrical code requirements, with correct grounding and secure device connections.

- Supported panel upgrades and device commissioning by verifying continuity, voltage, and insulation resistance before energization.

## Low Voltage Technician

Jul 2025 – Sep 2025

*OneNid Inc*

*Greater Toronto Area, ON*

- Installed and terminated Cat5e/Cat6/Cat6A cabling for IP cameras, access points, and intercom systems to TIA/EIA standards.
- Integrated access control hardware (card readers, maglocks, motion sensors) with low-voltage wiring and control panels.
- Executed structured cabling from floor plans and wiring diagrams; labeled and organized runs for easier maintenance and troubleshooting.
- Validated terminations and diagnosed faults using cable testers, crimping tools, and multimeters before system handoff.

## Gas Technician Co-op

Jun 2026 – Aug 2026

*Considerate Tech*

*Greater Toronto Area, ON*

- Installed gas piping systems in new residential construction, including cutting, threading, joining, and pressure-testing runs to appliance connection points.
- Installed venting systems for gas-fired appliances, verifying correct sizing, slope, clearances, and termination requirements.
- Fabricated and installed sheet metal ductwork, including supply and return air trunks and register boxes, from mechanical drawings.
- Worked to code and manufacturer specifications on active construction sites while maintaining site safety practices.

## Operations & Systems Assistant

Jun 2022 – Aug 2022

*Microgreen Solar Corp*

*Markham, ON*

- Led packaging operations to consistently meet daily throughput and quality targets.
- Coordinated inventory and shipment logistics across product lines to support on-time fulfillment.

## HVAC Assistant

May 2024 – Dec 2024

*HVAC Contractor*

*Greater Toronto Area, ON*

- Installed, maintained, and serviced residential/commercial HVAC systems with focus on safe and reliable operation.
- Fabricated ductwork and completed copper pipe cutting, brazing, and insulation to support field installations.
- Used wiring diagrams, schematics, and HVAC layouts to troubleshoot installation issues and verify correct system setup.

## PROJECTS

### 4x4x4 RGB LED Cube

Dec 2021 – Jun 2023

*Arduino / C++ / PCB Design*

- Hand-assembled a 192-LED multiplexed cube from individually soldered components onto custom KiCad PCBs, addressing all LEDs with only 6 Arduino pins via shift registers and Bit Angle Modulation (BAM).
- Fabricated a 3D-printed enclosure and completed final mechanical/electrical assembly and wiring.
- Implemented C++ animation effects (sparkles, fireworks) and extended the design approach to an 8x8x8 variant.

## CERTIFICATIONS

- WHMIS Certification (2026)
- Working at Heights Certification (2024)
- Full G Driver's Licence (Ontario)
- G2 Gas Technician (2026)
- G3 Gas Technician (2025)
